REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant's claim states "a dosing device for adding a defined amount of additional grain only to the crop material flowing into the crop processor." As Applicant argues that **only** grain and not tailings or material other than grain are added by the dosing device. This limitation in combination with the remainder of the claim is not found in the prior art of record. The closest available prior art is Morrison 3,515,144 which is similar to the claimed invention except that it adds tailings to be rethreshed and not only grain.

Further Applicant submitted a declaration of Dr.-Ing. Folker Beck to overcome the rejection based on 35 U.S.C. 112. this declaration is persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
